

Open Spacesm

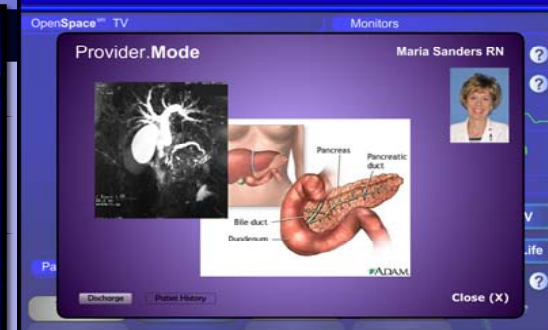

Motivation:

- * Enhance Patient / Provider communication
- * Patients feel they “waste time” in ER
- * Improve patient experience in ER
- * Utilize space in triage and treatment rooms

Features:

- * Patient education, Entertainment, Virtual environment (Second Life)
- * Real-time information display
- * New space for provider interaction

ED (web) 2.0:

- * Leverage social web ideas for the ED
- * Create/Share content with other hospitals
- * Customize OpenSpacesm to local needs
- * Self-Service, track usage, collect surveys
